PONUDA NA STOČNIM PIJACAMA

Slaba ponuda na stočnim pijacama

U toku prethodne nedjelje bilježimo nešto slabiju ponudu na stočnim pijacama u Crnoj Gori. Na podgoričkoj stočnoj pijaci imali smo najbolju ponudu prasadi. U ponudi je bilo 80 grla sa cijenom 3,2 €/kg žive mjere.

U Nikšiću prasad su nudena po cijeni od 3 do 3,5 €/kg žive mjere, u ponudi je bilo 25 grla.

U Beranama i Bijelom Polju cijena prasadi je ista kao i u Nikšiću a u ponudi je bilo 20 prasadi u Beranama, a u Bijelom Polju trgovina se obavljala na farmama.

Na pljevaljskim stočnim pijacama prasad su prodavana po cijeni 3€/kg žive mjere u ponudi je bilo 40 grla.

U Baru nije bilo ponude prasadi.

Bar

Cijene žive stoke ove nedjelje nijesu se bitnije mijenjale u odnosu na prethodne nedjelje. Ponude na barskoj stočnoj pijaci nijesmo imali, dok je na okolnim pijacama (Ostros i Vladimir) ponuda znatno slabija nego prethodnih nedjelja. Trgovina krupnom stokom karakteristično za ovaj period polako se završava vjerovatno sa krajem ovog mjeseca.

Berane

Na stočnoj pijaci u Beranama ove nedjelje bila je slaba ponuda i tražnja žive stoke. Cjenovni trend je ostao na istom nivou, osim kod

kategorija teladi i priplodnih krava kod kojih je bio u umjerenom rastu.

Nikšić

Ove nedjelje bilježimo rast cijena jagnjadi, jaradi, kao i priplodnih ovaca i koza. Pala je cijena prasadi, pa se ona prodaju po dominantnoj cijeni od 3,25€/kg žive mjere. Ponuda žive stoke je lošija u odnosu na prethodni period a na pijaci je uopšte nema.

Pljevlja

Protekle sedmice na pijacama u Pljevljima obilježena je dobra ponuda stoke zbog Nove

godine i božićnih praznika. Najviše je u ponudi bilo jagnjadi i prasadi.

Bijelo Polje

Tokom prethodne dvije sedmice ponuda stoke na bijelopoljskim stočnim pijacama je bila dosta smanjena što je u skladu sa sezonskom prodajom za ovo doba godine. Dio prodaje (prasad, junad i ovce) odvijao se i na farmama. Cijene su zadržale nepromijenjene vrijednosti.

Podgorica

Veoma slaba ponuda i tražnja na podgoričkoj stočnoj pijaci ove nedjelje. Šilježadi je bilo svega 8 grla po cijeni od 2,7 €/kg žive mjere. Teladi je bilo u ponudi 5 grla po cijeni od 3,1 dok su junad prodavana po cijeni od 2,1€ a na ponudi je bilo 7 grla. Prasad su nuđena po cijeni od 3,2€ na ponudi je bilo 80 grla dok su tovljenici koštali 2,2, a nuđeno je 35 grla.

ISHRANA OVACA U TOKU LAKTACIJE

Ovce sa kvalitetnom vunom daju za 5-7 mjeseci laktacije 120-220 kg mlijeka, rase sa grubljom vunom 500-600 kg mlijeka, dok istočno-frizijske daju 1000-1200 kg mlijeka. Ovčije mlijeko ima veću energetska vrijednost od kravljeg. Iskorišćavanje hranljivih materija za proizvodnju mlijeka kod ovaca je slabija nego kod goveda za 20-50%.

U toku laktacije i držanja u stajskim uslovima, neophodno je da se ovcama obezbijedi dovoljno prostora na jaslama, ako bi mogle neometano da uzimaju hranu i da sve imaju podjednako priliku da dođu do hrane. Ukoliko je predviđeno da sve ovce jedu istovremeno, za svako grlo treba obezbijediti 40-45 cm prostora za jaslama.

Orijentacione potrebe u hrani za ovce prosječne mase 50-55 kg u laktaciji
